

on Veterans' Affairs of the Senate and the House of Representatives a report assessing the advantages and disadvantages of the use by the National Cemetery Administration of flat grave markers and upright grave markers.

(2) The report under paragraph (1) shall set forth the advantages and disadvantages of the use of each type of grave marker referred to in that paragraph, and shall include criteria to be utilizing in determining whether to prefer the use of one such type of grave marker over the other.

The title was amended so as to read: "A bill to require the Secretary of Veterans Affairs to establish a national cemetery for veterans."

Mr. DOMENICI. Mr. President, it is with great pleasure that I rise today to talk about the Senate passage of a bill I introduced that will extend the useful life of the Santa Fe National Cemetery in New Mexico. I also want to thank Senator SPECTER for his assistance that helped to make passage of this bill possible.

The men and women who have served in the United States Armed Forces have made immeasurable sacrifices for the principles of freedom and liberty that make this Nation unique throughout civilization. The service of veterans has been vital to the history of the Nation, and the sacrifices made by veterans and their families should not be forgotten.

These veterans at the very least deserve every opportunity to be buried at a National Cemetery of their choosing. Unfortunately, projections show the Santa Fe National Cemetery will run out of space to provide casketed burials for our veterans at the conclusion of 2000. However, with Senate passage of this bill we have taken an important step to ensure the continued viability of the Santa Fe National Cemetery.

I believe all New Mexicans can be proud of the Santa Fe National Cemetery that has grown from 39/100 of an acre to its current 77 acres. The cemetery first opened in 1868 and within several years was designated a National Cemetery in April of 1875.

Men and women who have fought in all of our nation's wars hold an honored spot within the hallowed ground of the cemetery. Today the Santa Fe National Cemetery contains almost 27,000 graves that are mostly marked by upright headstones.

The Senate's action today brings us another step closer to ensuring the Santa Fe National Cemetery will not be forced to close. The bill passed

today allows the Secretary of Veterans Affairs to provide for the use of flat grave markers that will extend the useful life of the cemetery until 2008.

While I wish the practice of utilizing headstones could continue indefinitely if a veteran chose, my wishes are outweighed by my desire to extend the useful life of the cemetery. I would note that my desire is shared by the New Mexico Chapter of the American Legion, the Albuquerque Chapter of the Retired Officers' Association, and the New Mexico Chapter of the VFW who have all endorsed the use of flat grave markers.

Finally, this is not without precedent because exceptions to the law have been granted on six prior occasions with the most recent action occurring in 1994 when Congress authorized the Secretary of Veterans Affairs to provide for the flat grave markers at the Willamette National Cemetery in Oregon.

Mr. President, I again want to thank Senator SPECTER for his assistance and state how pleased I am with the Senate passage of this important bill.
